EDUCATION

Vellore Institute of Technology <i>4th year of B-Tech in Information Technology, 9.09 CGPA</i>	Vellore, Tamil Nadu 2022 - present
FIITJEE Junior College <i>Telangana State Board of Intermediate Education, 96.8%</i>	Hyderabad, Telangana 2020 - 2022
Meridian School <i>CBSE, 10th Board Exams, 93.6%</i>	Hyderabad, Telangana 2019 - 2020

EXPERIENCE

Technical Analyst ION Group, Hyderabad, India - Working within the Cleared Derivatives (CD) division, focusing on technical analysis and support for high-frequency trading and clearing platforms. - Collaborating on the optimization of XTP products, ensuring system reliability and efficient processing. - Conducted advanced root-cause analysis utilizing proprietary frameworks to architect and deploy structural enhancements for critical financial workflows.	Jan 2026 – Present
Intern Schneider Electric, Bangalore, India - Helped in integrating a third-party software solution across Schneider's largest PCBA facility, resulting in a 20% improvement in quality. - Facilitated seamless collaboration between digital and manufacturing teams, accelerating deployment timelines. - Digitized key operational checksheets using JavaScript and Augmentir; 3 checksheets deployed live, improving inspection efficiency by 25% reducing paper consumption by 75%.	May 2025 – June 2025
AI/ML Intern FinMitr - Developed a generative AI chatbot to provide personalized financial services and enhance user interactions. - Devised a sophisticated NLP framework that enabled the chatbot to manage over 1,000 unique financial queries. - This innovation led to a significant reduction in response times and increased query resolution efficiency for the support team.	Aug 2024 – Nov 2024

PROJECTS

[PORTFOLIO LINK]

Deceptive Website Design Analysis Big Data, Apache Spark, Scikit-learn, NLP - Developed a scalable big data system to detect dark patterns in e-commerce websites across 10,000+ reviews. - Applied NLP to identify urgency cues and deceptive tactics with 85% classification accuracy. - Enabled continuous model improvement by integrating user feedback into Spark-based retraining workflows.	Mar 2025 – Apr 2025
AI-Driven Sleep Analysis Python, Librosa, Scikit-learn, Streamlit [Live Demo] - Implemented an ML pipeline using audio feature extraction (MFCC) to detect sleep anomalies with 85% accuracy. - Merged structured health data with audio signals to improve prediction robustness. - Deployed via Streamlit, enabling real-time predictions and delivering personalized sleep recommendations.	Jan 2025 – Mar 2025

SKILLS

Programming Languages: Java, Python, C, C++, SQL, JavaScript, HTML, CSS
Machine Learning & AI: Supervised & Unsupervised Learning, Deep Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Scikit-learn, TensorFlow, PyTorch
Data Science & Analytics: NumPy, Pandas, Matplotlib, Seaborn, Data Preprocessing, Feature Engineering, Model Deployment
Big Data & Cloud: Apache Spark, Hadoop, AWS (S3, DynamoDB, Lambda, API Gateway, SNS), Cloud-Native Application Development
Frameworks & Development: Flask, Streamlit, SpringBoot, Node.js, RESTful APIs
Databases: MySQL, MongoDB, DynamoDB
Developer Tools: GitHub, Postman, VS Code, Jupyter Notebook
Relevant Coursework: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Artificial Intelligence (AI), Machine Learning (ML), Web Development, Database Management Systems (DBMS), Computer Networks (CN), Operating Systems (OS), Big Data Analytics

ACHIEVEMENTS & HOBBIES
