EDUCATION

Vellore Institute of Technology

4th year of B-Tech in Information Technology, **9.08 CGPA**

Vellore, Tamil Nadu

2022 - present

FIITJEE Junior College

Telangana State Board of Intermediate Education, **96.8%**

Hyderabad, Telangana

2020 - 2022

Meridian School

CBSE, 10th Board Exams, **93.6%**

Hyderabad, Telangana

2019 - 2020

EXPERIENCE

Intern | Schneider Electric, Bangalore, India

May 2025 – June 2025

- Helped in integrating a third-party software solution across Schneider's largest PCBA facility, resulting in a 20% improvement in quality.
- Facilitated seamless collaboration between digital and manufacturing teams, accelerating deployment timelines.
- Digitized key operational checksheets using **JavaScript** and Augmentir; 3 checksheets deployed live, improving inspection efficiency by 25% reducing paper consumption by 75%.

AI/ML Intern | FinMitr

August 2024 – November 2024

- Developed a generative AI chatbot to provide personalized financial services and enhance user interactions.
- Devised a sophisticated NLP framework that enabled the chatbot to manage over 1,000 unique financial queries.
- This innovation led to a significant reduction in response times and increased query resolution efficiency for the support team.

PROJECTS

[PORTFOLIO LINK]

Deceptive Website Design Analysis | Big Data, Apache Spark, Scikit-learn, NLP

Mar 2025 – Apr 2025

- Developed a scalable big data system to detect dark patterns in e-commerce websites across **10,000+ reviews**.
- Applied NLP to identify urgency cues and deceptive tactics with **85% classification accuracy**.
- Enabled continuous model improvement by integrating user feedback into Spark-based retraining workflows.

AI-Driven Sleep Analysis | Python, Librosa, Scikit-learn, Streamlit [Live Demo]

Jan 2025 – Mar 2025

- Implemented an ML pipeline using audio feature extraction (MFCC) to detect sleep anomalies with **85% accuracy**.
- Merged structured health data with audio signals to improve prediction robustness.
- Deployed via Streamlit, enabling real-time predictions and delivering personalized sleep recommendations.

Tech Store Website | AWS, Python, Flask, DynamoDB, S3, Lambda

Sep 2024 – Oct 2024

- Designed and deployed a cloud-native e-commerce platform optimized for scalability and high availability.
- Reduced platform latency by **30%** through AWS Lambda integration with API Gateway and DynamoDB.
- Enabled real-time customer notifications via AWS SNS and hosted static assets on S3, improving user engagement.

SKILLS

Programming Languages: Java, Python, C, C++, SQL, JavaScript, HTML, CSS

Machine Learning & AI: Supervised & Unsupervised Learning, Deep Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Scikit-learn, TensorFlow, PyTorch, Hugging Face

Data Science & Analytics: NumPy, Pandas, Matplotlib, Seaborn, Data Preprocessing, Feature Engineering, Model Deployment

Big Data & Cloud: Apache Spark, Hadoop, AWS (S3, DynamoDB, Lambda, API Gateway, SNS), Cloud-Native Application Development

Frameworks & Development: Flask, Streamlit, React.js, Node.js, RESTful APIs

Databases: MySQL, MongoDB, DynamoDB

Developer Tools: GitHub, Postman, VS Code, Jupyter Notebook

Relevant Coursework: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Artificial Intelligence (AI), Machine Learning (ML), Web Development, Database Management Systems (DBMS), Computer Networks (CN), Operating Systems (OS), Big Data Analytics

ACHIEVEMENTS & HOBBIES

- Trinity College of London Grade 6 Keyboard Certification
- Represented school in Zonal Football and Badminton Tournaments
- State Rank 5 in NOF International Olympiad
- Vice Chaired MUN Committee of UNFF (United Nations Forum on Forests)
- Playing keyboard/guitar and listening to music
- Reading, traveling, and exploring cultures
